MARINE BIOLOGICAL LABORATORY

Complete stock of living and preserved materials for Zoology, Botany, and Embryology including Protozoan cultures. Drosophila cultures and Microscope slides.

Catalogues on request
Address Supply Department
MARINE BIOLOGICAL LABORATORY
WOODS HOLE, MASS.

Anatomical drawings relating to infantile paralysis are now available to teachers of biology. These were executed by Dr. Frank H. Netter and originally appeared in the August 15, 1949 issue of *Life*. The drawings may be used to supplement a Science Unit on Poliomyelitis, comprising a source book for students, a teachers' guide, and a 39-frame filmstrip. Requests for these materials, which are furnished without charge, should be made to Education Service, National Foundation for Infantile Paralysis, 120 Broadway, New York 5, New York.

BIOLOGY SLIDEFILMS

Eight rolls comprising 288 detailed drawings and descriptions of all important invertebrate and vertebrate animals on 35 MM SLIDEFILMS project to full screen size.

Slidefilms in all High School sciences including new "How to Study"—$3—Postpaid

To All Readers:

If you enjoy The American Biology Teacher, have some friend send in this application.

THE NATIONAL ASSOCIATION OF BIOLOGY TEACHERS

JOHN P. HARROLD, Secretary-Treasurer,
110 Hines Ave., Midland, Mich.

☐ NEW
☐ RENEWAL

I hereby apply for membership in The National Association of Biology Teachers and enclose $2.50* as my annual membership dues $2.00 of which is for a year's subscription to the American Biology Teacher. (Subscription may not be had separately)
